Displacement	3,770kg / 8,311lb
Hull Material	GRP
Engine	2 x Mercury Verado V-10 400hp
Builder	Axopar Boats
Accommodation	4 berths in 2 cabins

BROKER'S COMMENTS

2025 Axopar 37 XC, RUSH is powered by twin upgraded Mercury 400s, equipped with the Brabus Line package, aft cabin, and reverse cycle air conditioning with heat. The 37 XC is built around its enclosed pilothouse, with sliding side doors and a retractable roof that let you keep it closed up in rough or colder conditions, or open everything up when the weather's right. With the added climate control, it's comfortable to use as a year-round boat. It's quick to plane, handles chop well, and has a comfortable cruise thanks to the stepped hull design.

The layout is straightforward and easy to use, with a functional helm area, large foredeck, and an open aft section that can be set up depending on how you plan to use the boat. Below deck, there's a forward cabin with enclosed head, and the aft cabin gives you a second sleeping area or additional storage. Overall, it's a practical setup for someone looking for a mix of performance, weather protection, and overnight capability.

The twin Mercury 400s have low engine hours, with transferable warranties valid through 2032. In 2026, the boat's battery system was upgraded to 900Ah MAN Powers lithium batteries, allowing the induction stove and air conditioning to operate without shore power.

The first owner kept RUSH on a lift inside an enclosed boathouse. The current owner purchased the boat in July 2026 and has kept her on a mooring in Rhode Island.

OWNER'S COMMENTS

The Axopar 37 is world-renowned for its amazing speed and handling, paired with unprecedented comfort thanks to its large, fully protected cabin. This very recent 2025 model, with almost all possible options, is distinctive among others on the market for two reasons.

One is that it's the only one with twin Mercury 400 HP engines, as compared to the normal 350s. With better fuel economy, higher top speed, and superior acceleration and power, these engines add another dimension to the boat.

Second, because the 37 normally comes with an AGM 160 amp-hour battery system and a nominal inverter/charger, none of the AC options (AC/Heat, water heater, and induction stovetop—all spec'd for this 37) will run without shore power. Furthermore, with only about 70 amp-hours of usable battery power, charging with the engines is necessary for a stay away from a dock for more than a day. We solved this problem by professionally installing the following: three lithium Epoque 300 amp-hour batteries, a Victron 3000-watt inverter / 100-amp charger, and a DC/DC converter to ensure smart charging from the engines. With about 700 usable amp-hours and the ability to use all three AC options, we're able to spend days away from hot, crowded docks enjoying all aspects of this 37 without the need for charging. (This was a \$17,000 upgrade).

We enjoyed this 37 so much, we're buying the new Axopar 38.

MANUFACTURER'S COMMENTS

The new crossover that challenges convention in both looks and onboard functionality, bringing a new era to all-weather boating. This model combines the functionality, ease of movement, social outdoor

and indoor spaces, and versatility of outboard walkaround centre-consoles with a spacious, fully enclosed weather-proofed cabin that, with distinctive looks, challenges traditional perceptions of cabin boats. We consider the 37 XC to be the Gran Turismo of the seas, opening a world of possibilities for safe, extended voyages in comfort even in unpredictable weather.

CONSTRUCTION

Hull, Deck & Superstructure Construction:

- Hull Shape: Modified Vee.
- Gullwing doors.
- Hand-laminated hull in Vinylester resin for the first coat for osmosis prevention of the hull in GRP material.
- Twin-stepped hull with sharp entry bow.
- Heavy-duty rub rail with rubber end caps in grey.
- Heavy-duty rub rail around swim platforms.
- Axopar 3D signature chrome logo on both sides of hull.
- Bow thruster tunnel preparation in hull.
- Walk-around deck layout with open aft deck.
- Anti-skid finishing on working deck areas and deck hatches.
- Self-draining deck area with quick drain aft deck.
- Self-bailing cockpit and helm area.
- All hardware, pulpits, locks, hinges, filler caps and cockpit grab rails in 316 stainless steel.
- Toughened glass windscreen and side windows in light green tint with illuminated 37 signature.
- Fully enclosed cabin with extra wide and lockable sliding doors.
- Roof structure in white GRP with large opening canvas roof.
- Aft deck with large storage compartment.
- Side rails.
- Integrated swim platforms and telescopic bathing ladder.

MACHINERY

Engine & Gearboxes:

- 2 x Mercury Verado V-10 400hp outboard engines.
- Integrated engine bracket in hull for outboard engines.

Maintenance & Performance:

- Engine hours approx. 125 @ October 2026.
- Cruising speed: 30 knots.
- Max speed: 55 knots.

Propulsion & Steering:

- Steering System: Joystick Control.
- Brabus performance line.
- Brabus Line trim package.
- Side Power bow thruster.
- Steering wheel in leather with Axopar logo.
- Trim-tabs with JPO joystick control.

ELECTRICAL SYSTEMS

Voltage Systems:

- Control switch panel in glass with illuminated push buttons.
- Main control panel with remote-controlled battery switches.
- Splash-proof USB outlet in steering console wall.
- Main 12V fuse panel with automatic fuses.
- 12V and USB outlet in front cabin.
- Battery / electrical compartment under aft deck storage.

Battery Banks:

- 900Ah MAN Powers lithium batteries.

Battery Chargers:

- 40Ah battery charger.

Alternators:

- Each outboard has an alternator.

Shore Power:

- 110V shore power.

Other Electrical:

- 110V inverter.

PLUMBING SYSTEMS

Fresh Water & Water Heating System:

- Warm water system.

Bilge Pumps:

- Two electric bilge pumps with auto-function.
- Manual bilge pump for aft deck section.

TANKAGE

Fuel:

- Fixed aluminum fuel tank 193 US gal / 730l, with overflow prevention.
- US EPA fuel system.

Fresh Water:

- Freshwater tank 26 US gal / 100l.

Grey/Blackwater Holding Tanks:

- Holding: 1 x 21 US gal / 79l.

NAVIGATION EQUIPMENT

- Twin Simrad chartplotters, NSS 12".
- Simrad RS100-B VHF radio.
- Active imaging 3-in-1 echo sounder.

- Simrad Radar HALO20+.
- Signal horn.

DOMESTIC EQUIPMENT

Galley:

- Refrigerator in main cabin.
- Galley with induction stove.

Heads/Showers:

- Built-in electric fresh water flush toilet under L-sofa with septic tank 70l and deck/hull outlets.
- Shower in toilet compartment.
- Shower on aft deck, warm/cold.
