Hull Material	GRP
Engine	1 x Volvo Penta D6-370
Builder	Nimbus Boats AB
Designer	Ocke Mannerfelt
Accommodation	4 berths in 2 cabins

BROKER'S COMMENTS

A well-maintained Nimbus Nova 300 R offering a good combination of performance, comfort and practicality. Powered by a Volvo Penta D6-370 with approximately 780 engine hours, she provides good performance and comfortable cruising, making her well suited for both shorter day trips and longer weekends on the water.

The boat has been regularly serviced by an authorised Volvo Penta workshop, and the drive was refurbished and the drive bellows replaced in 2025. The batteries and windscreen wipers were replaced in 2024. She is also equipped with a bow thruster, Zipwake trim tabs, electric anchor windlass and a well-equipped navigation package, providing practical features for both cruising and manoeuvring.

The Nimbus Nova 300 R offers a spacious and practical cockpit with plenty of room for relaxing and socialising with family and friends. The aft cabin provides additional accommodation, while the bathing platform gives easy access to the water and makes swimming and going ashore convenient. The layout makes good use of the available space and offers a comfortable setting for spending time on board.

The boat has been stored indoors and has been well cared for by her current owner. With her reliable Volvo Penta engine, practical equipment and versatile layout, she is a suitable choice for those looking for a comfortable motorboat for day trips, summer cruising and weekends on the water.
